

CONTRACT AWARD

Moore Door LLC

American Reinvestment and Recovery Act (ARRA) Rules

ARRA rules state that all iron, steel, and manufactured goods used in the project must be produced in the United States.

All vendors and contractors that are paid using ARRA (Stimulus) funds must have a DUNS (Data Universal Numbering System) identification number in order to satisfy federal reporting requirements. Contractors must also have a CCR (Central Contractor Registration) number in addition to the DUNS number.

To register with Dun and Bradstreet for a DUNS number you may go to <http://fedgov.dnb.com/webform>. A contractor must first have a DUNS number before registering for a CCR number.

For information on CCR, go to <http://www.ccr.hov/FAQ.aspx>. To register with CCR and get a CCR number, go to <http://www.ccr.gov/>.

As your project will be financed with ARRA funds, you are required to obtain these registration numbers if you do not currently have them. It may take several weeks to acquire DUNS and CCR numbers so you should begin the process immediately.

DUNS # _____

CCR # (for contractors) _____
