

Meal Time Volunteer

Thank you for volunteering to help us at meal time. Here a few things you need to know:

- Please wash your hands before you do anything related to food service. Wash again if you cough, sneeze or blow your nose.
- If you are helping to put foods on the table, please wear food service gloves if you will need to touch any of the foods.
- We like to have the children help as much as possible with setting the table.
- We pass all foods around the table and the children serve themselves, so please don't put any food on their plates.
- Please join us in eating. Take a small portion so there is plenty for the children and try all foods.
- Please say only positive things about the foods being served and use good table manners.
- If someone spills by accident, it's OK. They just need to clean up their spill.
- Everyone cleans up their own space after the meal.
